

# Good and Lasting

Trent Dabbs

[Verse 1]

One day down and life to go  
Looks like you and me, we've lost all control  
Major Tom is moving on  
And the space left in between us  
Is the place where we belong

And who would've thought that we would go  
Falling off the face of the world while it moves on?  
No one says 'you told me so'  
What if everything we live for comes down to skin and bone?

[Chorus]

What if it's good and lasting?  
Good and lasting  
What if it's good and lasting?

Good and lasting

[Verse 2]

What if fear is just a ghost?  
It's more scared of us than the closet we keep closed  
If every day could never end  
Do we live for happiness?  
Feel the one last kiss

[Chorus]

What if it's good and lasting?  
Good and lasting  
What if it's good and lasting?  
Good and lasting

[Interlude]

[Chorus]

What if it's good and lasting?  
Good and lasting  
What if it's good and lasting?  
Good and lasting
