

Shine

Trent Dabbs

I know you're tired
I see your eyes cry again
I see you fall
And I will fall down with you
Hold on

Shine like the rivers that sent you
Baby we'll run so far away from here
I've loved you so long that I can hardly remember
What it was like without you here

Your heart breaks down
When no one is around to see
Oh no...
Life let you down
That don't seem fair at all to me
My love

Shine like the rivers that sent you
Baby we'll run so far away from here
I've loved you so long that I can hardly remember
What it was like without you here

Shine like the rivers that sent you
Baby we'll run so far away from here
I've loved you so long that I can hardly remember
What it was like without you here
What it was like without you here
