

## World on Time

Trent Dabbs

This heart is locked and it's bringing back  
It's about to be wrong  
These friends are friends  
It's getting off again  
Been where I've never been if I'm the one  
Oh, baby you came to my world on time  
Got just in time to light our fire  
Oh, baby I got what I want, alright  
Cause you came to my world on time  
Oh, my soul, it shows its own desires  
It stands before the quiet when you leave  
So lead me through these waters full of life  
Onto the other side  
Oh, baby, I've come to your world on time  
But just in time to light the fire  
Oh, baby, I got what you want alright  
Cause you came to my world on time  
Instrumental  
To not be free  
My destination is you  
My destination is you  
Oh, baby you came to my world on time  
Got just in time to light our fire  
Oh, baby we got what we want, alright  
Cause you came to our world on time  
You came to our world on time  
You came to our world on time
