

Hold On

Trent Harmon

Ain't nothing but heartbreak on the six o'clock news
Well they might as well call it the six o'clock blues
It seems like the whole world's going wrong
It ain't no kinda love song

We got to hold on
We got to hold on
There ain't nothing bad
A little love can't get us through
We got to hold on
When it feels like hope is gone
The remedy is you and me
Gotta hold on
To each other

Now people say to let it go
That's just the way it is, don't you know
And I don't see how we can do any harm
To be reaching out with open arms

We got to hold on
We got to hold on
There ain't nothing bad
A little love can't get us through
We got to hold on
When it feels like hope is gone
The remedy is you and me
Gotta hold on
To each other
Ooh

Everybody understands
Everybody needs a helping hand
Everybody understands
And everybody needs a helping hand

Everybody (everybody) understands (ooh)
Everybody needs a helping hand
Everybody (everybody) understands (ooh)
And everybody needs a helping hand

We got to hold on
We got to hold on
There ain't nothing bad
A little love can't get us through
We got to hold on
When it feels like hope is gone
The remedy is you and me
Gotta hold on
To each other

(Everybody understands)
(Everybody needs a helping hand)
We got to hold on (everybody understands)
When it feels like hope is gone
The remember is you and me (everybody needs a...)
Gotta hold on
