

## Low Point

Trespassers William

I've been scared  
Not like this  
You lose things, I lost it  
Just please reach from somewhere

My heart is done  
It's too scared  
I've never wished this before now  
If I said I did I take it all back

You have to go all the way  
To know where it is  
All the way down  
You know what you'd stop for

When you're running from your worst fear  
That you need it  
Now I'm fading  
This is what I'd like to lay in

I've never wished this before now  
Now I know all the long steps down  
This time my eyes close like this  
I know my last thoughts

I know my last wish  
To not be wishing  
To not have broke this  
To feel what I'm missing

Somehow I broke it  
I only know breaking  
And what I want to lie in
