

Right You Are

Trespassers William

you should drain of color
like an insect on a leaf
you should taste of nothing
how much water would you be
shows how right you are
when i'm crying and you're not
i'm not one of those
to say that hurting is better
than not knowing.
fill the nights with water
or something promising to fill
never mind the waiting
beautiful
something
bewitch
will
shows how strong you are
when i'm trying and you're not
on you, doesn't show
i would fass for that face again
after all.
stop telling my heart...
just stop tugging my heart.
