

She's just a friend with a bonus, yeah  
Lil' extra somethin' on the side  
I think we both know what we want, yeah  
Neither of us want to ruin what we've got

911, it's an emergency  
She's on fire, she's summertime  
Like kryptonite, weak in the knees  
She got me tongue tied  
Is she the type to be down and ride?  
'Till the day I die, yeah, yeah

Talk to me, sparks and gasoline  
Is this tragedy a masterpiece?  
Hold me down like gravity  
Help me keep my sanity  
She royalty to me, her majesty  
That body hazardous, I think she plannin' it  
Oh, no, no, no, no, joke  
Baby, burn me up, think I'm smellin' smoke  
Got me fallin' for her, feelin' like dominoes  
Oh, oh, oh, I was sick and shorty my antidote  
I don't know how she like me down like this  
I hit the floor

She's just a friend with a bonus, yeah  
Lil' extra somethin' on the side
