

# BLEACH

Trevor Daniel

Think a part of me died  
When I fell off cloud nine  
And I can't decide  
If I like the truth more than the lie

You sold me  
Everyone told me  
You'd do me dirty

Like a used car I bought  
When I drove it off the lot  
All the wheels fell off  
And you just left me there to rot

You sold me  
Everyone told me  
You'd do me dirty

Like Jekyll and Hyde  
When you twisted the knife  
Did you ever think twice  
About the stains that you would leave behind

Would someone please pass me the bleach  
So I can wash these feelings off of me  
And I can live in my own make believe  
That I never met you and you never met me

Cleaning up your mess  
Another thing I need to disinfect  
You got one too many faces  
Never know which one I'm gonna get  
Telling me you love me while you wrap your hands around my neck  
Always say you love me every single time you left

Like Jekyll and Hyde  
When you twisted the knife  
Did you ever think twice  
About the stains that you would leave behind

Would someone please pass me the bleach  
So I can wash these feelings off of me  
And I can live in my own make believe  
That I never met you and you never met me

Would someone please pass me the bleach  
So I can wash these feelings off of me  
And I can live in my own make believe  
That I never met you and you never met me

Bleach  
Bleach  
Bleach  
Bleach

And I can live in my own make believe  
That I never met you and you never met me
