

Come Over

Trevor Daniel

Yeah-yeah-yeah-yeah-yeah
Yeah-yeah-yeah-yeah-yeah

Oh, when I get home
I might call you up to come over
Tonight I'm on my own
And baby girl, I wanna kick it with ya
I want you to come over
Yeah-yeah, baby, if you down
Bring your friends if you wanna
Yeah-yeah, baby, if you down

Got a bottle that I bought I still need to pop
There's a party in the 'burbs, heard that shit was hot
If you wanna go with me, baby we could slide
Yeah, you talk that talk, girl, what's on your mind?
Can tell it's been a long week, let's leave it behind us
You can come through, I could take you there
But it's cold out, get the Moncler'
Don't got the time to kick it, baby this is rare

This really all I need
Whenever I get home, I'ma ring you
You really all I need
Been a long day, wanna see you

Oh, when I get home
I might call you up to come over
Tonight I'm on my own
And baby girl, I wanna kick it with ya
I want you to come over
Yeah-yeah, baby, if you down
Bring your friends if you wanna
Yeah-yeah, baby, if you down

Why you really want me? Yeah, why you want me?
You was fuckin' with' my brodie, that was my homie
Why you want me? Yeah, you don't know me
Nigga want no smoke, you don't want no OG
How could you lie to me? I could not lie to you, yeah
Why you tryna fight with me? I don't wanna fight with you, yeah
I always wanna keep you right beside of me
You never knew you was just my everything
You was done, I tried to show you all the better things
You was the shawty that picked my phone from when it ring
The diamond drip, the diamond chain, you gon' let it bling
And if a nigga try to play you let that that choppa sing

This really all I need
Whenever I get home, I'ma ring you
You really all I need
Been a long day, wanna see you

Oh, when I get home
I might call you up to come over
Tonight I'm on my own
And baby girl, I wanna kick it with ya

I want you to come over
Yeah-yeah, baby, if you down
Bring your friends if you wanna
Yeah-yeah, baby, if you down
