Crash

Trevor Daniel

You gonna drive drive
Drive- until you crash
No you can't control it
Baby this ain't something you should hold back
You gonna drive drive
Drive- until you crash
Treat good girl
I know he never has
Let me take control
Baby I could do that

I know you think that
Know you think that
That I'm gonna do you wrong
But trust me

Never should've of let it start
You saw it from the beginning
Thinking if you settled down
Things would be different
Now he's messing round
Girl he's messing round
But you know he won't admit it
Talking, like you should've listened
Always saying somethings missing
Say that you've been acting different
Now I'm knocking baby
Baby, c'mon let me in
I know you don't wanna make this decision
Baby I've got nothing but good intentions
So let me help you forget him
Show you I can be different

Let me say the things that he never said
Let me do the things that he never did

You gonna drive drive
Drive- until you crash
No you can't control it
Baby this ain't something you should hold back
You gonna drive drive
Drive- until you crash
Treat good girl
I know he never has
Let me take control
Baby I could do that
