

Dadada

Trevor Daniel

Pull up with your friends, baby hop in, hop in
Tesla or the Benz I got options, options
Speakers knocking, hitting hard like rocky, rocky
Pop some Perignon cause I'm poppin, poppin
DaDaDa, icing out my wrist my God (oh my god)
VV's dance around my heart (oh my god)
When I hop in it's push to start (oh my god)
Said it must be nice, day and night
To have somebody right by your side, ugh
I can't deny, can't get you out my mind, I need you by my side,
DaDaDa

Turn me up, we don't want no drama
Please don't fuck it up
We been going hard until the sun come up
Still got hella drinks but we ran out of fucks

Here we go (ugh) oh my god
Shorty wanna flick up with the squad
Couple double d's in some Saint Laurent (oh my god)
Welcome to the winner's circle baby I know that
You wanna come through, whenever you're
With me we'll go anywhere you want to
Resuscitate my vibe baby I know that you want to
Take my energy for granted and baby girl
That'll haunt you
Said it must be nice, day and night
To have somebody right by your side, ugh
I can't deny, can't get you out my mind, I need you by my side,
DaDaDa

Turn me up, we don't want no drama
Please don't fuck it up
We been going hard until the sun come up
Still got hella drinks but we ran out of fucks
