

## Disaster

Trevor Daniel

If you want disaster you know I have the recipe, shawty  
One hand on your hip while the other is grippin' your body  
Oh, I want you here right beside me, I want you here right beside me  
Forever never lasts and making it happen it's not very likely  
If you want disaster you know I have the recipe, shawty  
One hand on your hip while the other is grippin' your body  
Oh, I want you here right beside me, I want you here right beside me  
Oh, I want you here right beside me, I want you here right beside me

Oh baby, I already know your not mine, I'm not yours  
When this time comes I'll go, but tonight take it slow  
For this time you're the one, got me high on my drug  
For the moment hold you closer (Closer)

I've accepted we're gon' win some and lose some  
You're definitely 'bout for me, not any better for you so

Forever never lasts and making it happen it's not very likely
