Go On

Trevor Daniel

No, I can't go on, baby, I don't wanna do this on my own
Don't know if I can be without you any longer
And I'm sick and tired of being all alone
And I don't think I'll ever move on

Can't stand it no longer
I can't go along without you
Go on, baby, I don't wanna do this on my own
No, no, I can't be without you

I know I let you down, down
Yeah, I know I let you down, down
We would go after school, windows down, let it bump
I still think about the times it was us
Never thought that you'd ever let me go, no
We would drive to your crib, say you needed me at night
I would pull up just so I could see your eyes
Now you act like I was never in your life
Oh, I guess I'll be fine (Oh, I guess I'll be fine)

Thinking back to the times when I had you
Polaroid pictures on the dash
This feeling's one I don't think I'll ever get through

No, I can't go on, baby, I don't wanna do this on my own
Don't know if I can be without you any longer
And I'm sick and tired of being all alone
And I don't think I'll ever move on

Can't stand it no longer
I can't go along without you
Go on, baby, I don't wanna do this on my own
No, no, I can't be without you when you're

Yeah, when you're gone
Ooh, I need now, baby, one try (One try)
I can take it, ooh, I need now, baby, one try

Baby I'm trying, tryna find a time I could give you
Didn't mean to lie when I said it would be different this time
Life's got a plan of its own, feels like the stars are against us
But I've got a plan of my own
Fate got it mixed up, or maybe I'm out of my mind
Maybe this drink got me by my side
Tell me what's on your mind, I'ma hear you out this time
I won't let you down

Can't stand it no longer I can't go along without you
(Go on, baby, I don't wanna do this on my own
Don't know if I can be without you any)
Can't stand it
No longer, I can't go along without you
Go on, baby, I don't wanna do this on my own
Don't know if I can be without you any
(Go on, baby, I don't wanna do this on my own
Don't know if I can be without you any)
