

I Don't Know

Trevor Daniel

Lately, I've been in my mind
And I can't seem to find a way out this time
So I've been acting like I'm fine
Heart beating out my chest, can't get it to slow down

Lately, I've been feeling stressed
I can't even breathe, I think I'm depressed
I can't even sleep, I just need some rest
But this anxiety's leaving me nothing left, oh

Lately, I'm feeling alone, lately, I'm losing control
I might just drive off the road, feel like my heart too cold
Feel like I'm losing control, feel like I'm far too gone
Feel like I'm far too gone

Lately, I've been in mind
And I can't seem to find a way out this time
So I've been acting like I'm fine
Heart beating out my chest, can't get it to slow down
Lately, I've been in mind
And I can't seem to find a way out this time
So I've been acting like I'm fine
Heart beating out my chest, can't get it to slow down

Lately, I been feeling stressed
I can't even breathe, I think I'm depressed
I can't even sleep, I just need some rest
But this anxiety's leaving me nothing left, oh

Lately, I feel cold, barely alive
I feel like I've gone and died inside
Everything feels like a waste of time
Tear me down then tell me I'm alright

Lately, I've been in mind
And I can't seem to find a way out this time
So I've been acting like I'm fine
Heart beating out my chest, can't get it to slow down
Lately, I've been in mind
And I can't seem to find a way out this time
So I've been acting like I'm fine
Heart beating out my chest, can't get it to slow down

Lately, I been feeling stressed
I can't even breathe, I think I'm depressed
I can't even sleep, I just need some rest
But this anxiety's leaving me nothing left, oh
