

It's A Feeling

Trevor Daniel

It's a feeling
So what? So what? It's a feeling
It's a feeling
So what? So what? It's a feeling

You and me out on the weekend
Chasing every high and never coming down
Suddenly, it's like we're dreaming
Stuck in a euphoria, don't wanna get out

I'm 'boutta cut loose, let me fill my cup
I ain't really looking for nobody to love
High like a balloon and I'm floating above
If I'm gonna take you way too far, so what?

I'm 'boutta cut loose, we don't need a reason
High like a balloon, breaking through the ceiling
Never too far, we don't know the meaning
So what? So what? It's a feeling

I'm 'boutta cut loose, we don't need a reason
High like a balloon, breaking through the ceiling
Never too far, we don't know the meaning
So what? So what? It's a feeling

(We don't need a reason
We don't need a reason
We don't need a reason
So what? So what? It's a feeling)

I don't know where I been last night
But I'm here again and I got déjà vu
Always say this is the last time
Now I'm taking shots and I ain't got no excuse

I'm 'boutta cut loose, let me fill my cup
I ain't really looking for nobody to love
High like a balloon and I'm floating above
If I'm gonna take you way too far, so what?

I'm 'boutta cut loose, we don't need a reason
High like a balloon, breaking through the ceiling
Never too far, we don't know the meaning
So what? So what? It's a feeling

I'm 'boutta cut loose, we don't need a reason
High like a balloon, breaking through the ceiling
Never too far, we don't know the meaning
So what? So what? It's a feeling

(We don't need a reason
We don't need a reason
We don't need a reason
So what? So what? It's a feeling)

I'm just gonna fly away
Anybody call, I'm M.I.A

I don't even know if I'ma make it out
But so what? So what? It's a feeling

I'm 'boutta cut loose, we don't need a reason
High like a balloon, breaking through the ceiling
Never too far, we don't know the meaning
So what? So what? It's a feeling

I'm 'boutta cut loose, we don't need a reason
High like a balloon, breaking through the ceiling
Never too far, we don't know the meaning
So what? So what? It's a feeling

(We don't need a reason
We don't need a reason
We don't need a reason
So what? So what? It's a feeling)
