

Mirror

Trevor Daniel

Ooh I wish I never met you
Cause your picture serves you better
Than you could ever offer
In person, when you're talking
No there's no coming back from it
Every word you speak is pushing me away
And there's no coming back from it

Mirror, mirror, mirror
Mirror, mirror, mirror
Tell you what you wanna hear
Just to cover what you hate
What you fearing
Can't drown in the water
That you swim in

Mirror, mirror, mirror
Mirror, mirror, mirror
Tell you what you wanna hear
Just to cover what you hate
What you fearing
Can't drown in the water
That you swim in

Saying lie to me lie to me
There's some things I wish you knew
But I can't get a word in - nah nah
You're to busy playing cool
Saying lie to me lie to me
There's some things I wish you knew
But I can't get a word in - nah nah
You're to busy playing cool

You're to busy playing cool
No there's no coming back from it
You're to busy playing cool
Every word that you speaks pushing me away
And there's no coming back from it

Mirror, mirror, mirror
Mirror, mirror, mirror
Tell you what you wanna hear
Just to cover what you hate
What you fearing
Can't drown in the water
That you swim in

Mirror, mirror, mirror
Mirror, mirror, mirror
Tell you what you wanna hear
Just to cover what you hate
What you fearing
Can't drown in the water
That you swim in
