

# Spin Me Round

Trevor Daniel

Why don't you spin me round round baby tonight  
Like a record that you wanna rewind  
Make you dizzy get you outta your mind  
Spin me round round baby tonight

Yeah it feels just like a dream  
When you're riding next to me  
Shift the gear let's up the speed  
Woah woah  
Got the lock you got the key  
Turn it up a few degrees  
Show you things you won't believe  
Woah woah

And I know you're watching  
I like to make a show  
We can go fast or slow  
I feel it coming  
We can just lose control

Why don't you spin me round round baby tonight  
Like a record that you wanna rewind  
Make you dizzy get you outta your mind  
Spin me round round baby tonight

Spin me round round baby tonight  
Like a record that you wanna rewind  
Hold me tight ya we might slip and slide  
Spin me round round baby tonight

Slow it down let off the gas  
Now don't lie let's make this last  
Skin on skin no holding back  
All the things we could the explore  
Places you ain't been before  
Twist the key unlock the door

And I know you're watching  
I like to make a show  
We can go fast or slow  
I feel it coming  
We can just lose control

Why don't you spin me round round baby tonight  
Like a record that you wanna rewind  
Make you dizzy get you outta your mind  
Spin me round round baby tonight

Spin me round round baby tonight  
Like a record that you wanna rewind  
Hold me tight ya we might slip and slide  
Spin me round round baby tonight
