

# Tempo

Trevor Daniel

I'm not tryna keep it too confidential  
You and me, we got a lot of potential  
I wanna see you pick it up, pick it up, girl  
Girl, I wanna see you pick up the tempo  
Wanna see you throw it back  
When you shake it like that  
Wanna see you throw it back  
Girl, I wanna see you pick up the tempo

Uh, who's that girl? What you done to me?  
Uh, all eyes on you, the centerpiece  
The only thing that matters in the room is you  
Stay right there, don't you go and leave  
'Cause I don't know what you're doing to me  
Only thing that matters here is you, baby

And I will follow you wherever  
This could really be forever  
Oh, I see me and you together, together, oh, nah  
And I will follow you wherever  
This could really be forever  
Oh, I see me and you together, together, no, no

I'm not tryna keep it too confidential  
You and me, we got a lot of potential  
I wanna see you pick it up, pick it up, girl  
Girl, I wanna see you pick up the tempo  
Wanna see you throw it back  
When you shake it like that  
Wanna see you throw it back  
Girl, I wanna see you pick up the tempo

Make me sweat when you raise the pace  
My heart is beating out my chest  
Girl, you got me falling for you, I confess  
Tripping up, our tongues are tied  
We should just let our bodies talk tonight  
Baby, you might lock me down for life, for life

I'll be by your side whenever  
I would never tell you never  
And no one's ever done it better, done it better, no, no  
And I will follow you wherever  
This could really be forever  
Oh, I see me and you together

I'm not tryna keep it too confidential  
You and me, we got a lot of potential  
I wanna see you pick it up, pick it up, girl  
Girl, I wanna see you pick up the tempo  
Wanna see you throw it back  
When you shake it like that  
Wanna see you throw it back  
Girl, I wanna see you pick up the tempo
