

# Trouble

Trevor Daniel

Oh, oh, oh, oh, oh  
There's a lot I want to do to you  
Baby, let me make you mine  
Let me make you my only, ooh

I'm caught up in your aura  
Just the type to leave me torn up  
I can't help that I want ya  
I can't help that you're my type  
I knew that you were trouble  
From the moment that we locked eyes  
I knew that you were trouble  
But caught a feeling when you walked by

And if you tear me apart  
Just tell me what I need to hear  
I'll let your words be the glue  
And we're back together  
Back to, back to  
Back together  
Back to, back to  
Back together

Over and over and over again  
I give you my all and you throw it away  
Run back, run back when you miss me  
Heart beat too fast when you kiss me  
You don't mean, you just say it, just to speak  
Tear me down, tear me down, oh, oh

I'm caught up in your aura  
Just the type to leave me torn up  
I can't help that I want ya  
I can't help that you're my type  
I knew that you were trouble  
From the moment that we locked eyes  
I knew that you were trouble  
But caught a feeling when you walked by

And if you tear me apart  
Just tell me what I need to hear  
I'll let your words be the glue  
And we're back together  
Back to, back to  
Back together  
Back to, back to  
Back together

You tore my heart out of my chest  
You're a killer, know you can't help it  
But I let you keep running back to me  
Can't stop, you're the only one I see  
I see, I  
I see trouble, trouble, I

And if you tear me apart  
Just tell me what I need to hear

I'll let your words be the glue  
And we're back together  
Back to, back to  
Back together  
Back to, back to  
And if you tear me apart  
Just tell me what I need to hear  
I'll let your words be the glue  
And we're back together  
Back to, back to  
Back together  
Back to, back to  
Back together
