

Youth

Trevor Daniel

You're here now
Got me higher than ever
Who am I?
Will you look in my eyes?
Am I someone that you've never seen in this life
Take a seat, you're with me
I'll lock you down, you can't leave
No

Oh, you love this, don't you?
You do, you do
No time to lose, no wasted youth
White lies turn to white lines
White lines turn to life line
You love this don't ya?
You do, you do

Loving it, girl, know you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, know you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, know you loving it, girl
Loving it, girl, see you loving it, girl

You love the sound of the drum
And your heartbeat
Wake up, day's over, then go to sleep
Living life like this
Nights like this
Burn, burn, burn
Let loose
Take a bite of this fruit
If you want we can do
What we both want to do

Everything that you've done
It's nobody's fault but your own
Yeah the blame is on you, burn baby

Oh, you love this, don't you?
You do, you do
No time to lose, no wasted youth
White lies turn to white lines
White lines turn to life line
You love this don't ya?
You do, you do

Loving it, girl, know you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, know you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, see you loving it, girl
Loving it, girl, know you loving it, girl
Loving it, girl, see you loving it, girl

Take a bite of this fruit
If you want we can do
What we both want to do
Everything that you've done
It's nobody's fault but your own
