Arrows

Trevor Hall

This journey has got me bleeding
A certain kind of feeling

But I can never leave it
Good God I know I need it

Arrows come straight for my heart
Arrows come straight for my heart

I thought I'd never face it
And now it's stripped me naked

Here standing in the open
I thought I missed the omen

Arrows come straight for my heart
Arrows come straight for my heart

The dark is all around me
But I'm so glad it found me

Over the moon and through stars

Arrows come, arrows come, arrows come...

Arrows come straight for my heart
Arrows come straight for my heart
Arrows come straight for my heart
Arrows come, arrows come, arrows come

The dark is all around me
But I'm so glad it found me

Over the moon and through stars
Arrows come straight for my heart
Arrows come straight for my heart
Arrows come straight for my heart
Arrows come, arrows come, arrows come

The dark is all around me
But I'm so glad it found me

Over the moon and through stars
Arrows come straight for my heart
