

Different Hunger

Trevor Hall

This is a different hunger
Heavier than thunder
Satisfied by love, love
That's what I say

Searching for pleasure but we only find pain
Not living in our hearts only living in our brain
Chasing yeah we're chasing after name and fame
But none of that will follow us down to our graves
If it ain't in here, it won't be there, I say

This is a different hunger
Heavier than thunder
Satisfied by love, love
That's what I say
That's what I say

Looking up, looking for a higher taste
We had it once before but it seems to be misplaced
People come together cause is ain't no race
Always 21 is on every single day
If it ain't in here, it won't be there, I say
If it ain't in here, it won't be there, I say

This is a different hunger
Heavier than thunder
Satisfied by love, love
That's what I say
That's what I say

This is a different hunger
Heavier than thunder
Satisfied by love, love
That's what I say
That's what I say

Searching for pleasure but we only find pain

This is a different hunger
Heavier than thunder
Satisfied by love, love
That's what I say
That's what I say

This is a different hunger
Heavier than thunder
Satisfied by love, love
That's what I say
That's what I say

Oh my mind, be humbler than a blade of grass
Be patient and forbearing like the tree

The time has come to speak of this love
Speak of this love, speak of this love
The time has come to speak of this love
Speak of this love, speak of this love

The time has come to speak of this love
Speak of this love, speak of this love
The time has come to speak of this love
Speak of this love, speak of this love
