

having an experience

Trevor Hall

I was having
I was having an experience
I was having an experience
I was having

If it is song, bring on the shower
I'm gonna bloom all of the flowers
You were in water, I was in sound
I'm going up, see you around
We were just talking, staying at home
Energy moving, I'm in the mode
Playing the song, I'm in a prayer
I really love you, I really care

I was having an experience
Experience
I was having an experience
I was having
I was having, having
I was having an experience
I was having an experience
Experience
I was having an experience
I was having

I'm going up, see you around
