

Ayo ayo ayo ayo nah

I've been up with grandma she told me about dreaming
Told me of that mystic water, told me of that tree
Don't you be afraid, my child
Don't you be afraid of what they say

Gotta get that owl medicine so they can't fool you
Go inside the heart and don't let all the dark thoughts school you
Don't you be afraid, my child
Don't you be afraid of what they say

I've got to go back to those skies indigo
Back to holy country roads
Back to what my sweet heart knows
I've got to play like a child in her lap
No defending no attack
I know the spirits got my back
Ayo ayo ayo ayo ayo ah
Ayo ayo ayo ayo ayo ah
Ayo ayo ayo ayo ayo ah

The story it continues to that island inner ocean
Way your song surrounds we were feeling sweet emotion
Don't you be afraid, my child
Don't you be afraid of what they say

We were staring into full moon eyes of white pueo
I could see the circle come around like a big halo
Don't you be afraid, my child
Don't you be afraid of what they say

I've got to go back to those skies indigo
Back to holy country roads
Back to what my sweet heart knows
I've got to play like a child in her lap
No defending no attack
I know the spirits got my back
Ayo ayo ayo ayo ah
Ayo ayo ayo ayo ah
Ayo ayo ayo ah

Well the story continues after all that we've been through
After time that we've past and we go fourth everlasting
Well the spirit been gracious
It been leading with patience
From the dream to the waking
Well we follow the sacred

And see who we really are
Who will it be
Where will it come from
What we really need
Everything surrender
Everything free
Give thanks for that owl medicine and see

Don't you be afraid nana
Don't you be afraid
Don't you be afraid nana
Don't you be afraid
I've got to go back to those skies indigo
Back to holy country roads
Back to what my sweet heart knows
I've got to play
Like a child in her lap
No defending no attack
I know the spirits got my back
