

# Lullaby

Trevor Hall

Take me away to a different place  
To the ocean or to outer space  
And all of these complications disappear  
And all that is left  
All that is left is the piece that I hold here

So please, would you please let me close  
Let me close my eyes  
Cause all I need at this moment is a lullaby  
Is a lullaby  
Is a lullaby

The ocean is where I need to be  
And I hope that this song can carry me  
And if you'd like well, you could come with me  
And I will show  
I will show you everything that you need to see

So please would please let me close  
Let me close my eyes  
Cause all I need at this moment is a lullaby

So please would please let me close  
Oh let me close my eyes  
Cause all I need at this moment hey, is a lullaby  
Is a lullaby
