

monsoon cloud

Trevor Hall

Rain it be falling from a monsoon cloud
All of that water coming out of your mouth
What did we see
Where did we go
Darling will we ever ever really know
Darling will we ever ever really know

I could see the mountains written on your skin
They were telling me something of where you've been
I felt like we were meeting for the first time
But I think that I've known you for a long long while
I think that I've known you for a long long while

I'm with you all of my days

I'm with you all of my days

I'm with you all of my days

Rain it be falling

Rain it be falling

Rain it be falling
