

Break me out the pattern
The rings of Saturn, yeah
And get me out of my way
I surrender mission
To gain another vision
Get me out of my way
The stars, they be whispering
Allow me to be kindred
Get me out of my way
A true double seeker, to find the inner teacher
Get me out of my way

I'm still learning how to walk in my fire
Live in my fire, love in my fire
I'm still learning how to walk in my fire
Live in my fire, love in my fire

If I try to push
I leave myself blinded, yeah
And get me out of my way
And so we stay reminded
It's all perfect timing
Get me out of my way
I've got to go under
If I wanna find it
Get me out of my way
I am that I am that I am what I am
That I am what I am, that I am what I am

I'm still learning how to walk in my fire
Live in my fire, love in my fire
I'm still learning how to walk in my fire
Live in my fire, love in my fire

I'm still learning how to walk in my fire
Live in my fire, love in my fire
I'm still learning how to walk in my fire
Live in my fire, love in my fire
I'm still learning how to walk in my fire
Live in my fire, love in my fire
I'm still learning how to walk in my fire
Live in my fire, love in my fire
