

The World Keeps Turnin'

Trevor Hall

Seek and hide
Come along for the ride
There'll be many many ups and downs
Like the waves of the ocean
Return me to that sea again
First you're born then you die
Then you smile as you cry
But the song is lovely
The melody is filled with fire
Listen closely
Lifted higher

But all things
They must pass
I say all things
They won't last

We can go a thousand miles in the blink of an eye
When our loved ones leave us we often cry
We don't know where we're going
But we know where we've been
With this love in our hearts
There can be no sin
Give it all to the sky
And rest your mind

The world keeps turnin'

It gets merry like a merry go 'round
It gets cold like a frozen winter
Well I change like summer fall
But I know love is all in all
Seeds we're always sowing
The grace is always blowing
We've just got to lift the sail
And we're bound to hit the shore
We'll finally calm this storm
