

Better

Trevor Jackson

You'll still be my baby
Even when we get faded
And you start acting crazy
Imma love you, Imma kiss you till it's all better
You'll still be my baby
Even when you don't want me
Cus your body's still calling
Imma pick up, Imma answer make it all better

You'll still be my babe
Even when you drive me crazy, yeah
Get you tatted on my neck
Feel a little free tonight I can't lie
When you get upset
Bet your body's on my body when it's over
Show me that you love me pull me closer
You still will

You'll still be my baby
Even when we get faded
And you start acting crazy
Imma love you, Imma kiss you till it's all better
You'll still be my baby
Even when you don't want me
Cus your body's still calling
Imma pick up, Imma answer make it all better

You know that you're my babe
Twenty-four hours of the day, yeah
That ain't never gonna change
How could I complain when you're all that I want
Yeah, backseat dangerous
Inside can't untangle us
Too deep I'm in too deep
Even when I let you down

You'll still be my baby
Even when we get faded
And you start acting crazy
Imma love you, Imma kiss you till it's all better
You'll still be my baby
Even when you don't want me
Cus your body's still calling
Imma pick up, Imma answer make it all better
