

# Good Enough

Trevor Jackson

It is hard enough for you  
I know you wait till I'm gonna stoppin' up  
[?] keep colding (colding)  
Just let naked cover up  
'Cause your good enough for this

Let's turn this moment to a poster (poster)  
Let's make sure I remember this

Body on top of bodies, on top of bodies  
They say three's a crowd  
I know there's no guess you like it  
You won't be watching

Now tell me is it good or good enough for you  
Now tell me is it good or good enough for you  
Tell me is it good enough  
I needed to be good enough  
Tell me is it good or good enough  
Is it good or good enough for you  
Is it good or good enough for you  
Is it good or good enough  
I don't know all these girl just don't my favourite  
Is it not enough for you

Just let the water run over you  
I think you fuckin' no better

I make it hard  
Body on top of bodies, on top of bodies  
They say three's a crowd  
I know there's no guess you like it  
You won't be watching

Now tell me is it good or good enough for you (uh)
