

# Heads Up

Trevor Jackson

She said tonight I'm at my man's house  
She said tonight can't let you take me down  
She said tonight I'm at my man's house  
Give me the heads up next time you in town

Know we gotta be discreet  
But I ain't seen you in a week  
I've been missing your physique  
She might sneak in and call the lord  
She know how to turn me on  
Right but I know it's wrong  
I can't help it girl  
I need you right now

She said tonight I'm at my man's house  
She said tonight can't let you take me down  
She said tonight I'm at my man's house  
Give me the heads up next time you in town  
She said tonight I'm at my man's house  
Give me the heads up baby  
I'ma have you going crazy  
You know that I will  
She said tonight I'm at my man's house  
Give me the heads up next time you in town

Here you go sending me back to voicemail again  
I know that you probably tell him that we only friends  
But what were they talking about?  
Cause we know what we know  
Only we know where we go  
I'm in love with the way you lie  
Beside me  
Girl I know all your secrets  
In my life I'll be your side  
Angel mixed with a demon  
Swear I ain't never gonna leave  
But I ain't when she said

She said tonight I'm at my man's house  
She said tonight can't let you dick me down  
She said tonight I'm at my man's house  
Give me the heads up next time you in town  
He can have his turn baby  
I'ma have you going crazy  
You know that I will  
But tonight she at her man's house  
Give me the heads up next time you in town  
Next time I'm in town girl I belong to you
