

James Dean

Trevor Jackson

I know that I come a long way
It took some patience yea
Living out here in LA
You don't know what I done saw yea
Every single night I pray
And thank Him that I made it this far
In my space coupe still chasin' the stars

Lately I been feeling like James Dean
Hottest thing outta Indiana since James Dean
Got a couple models in my kitchen just to blow off steam
Young, rich and handsome; how could you blame me?
I'm just living a dream
Guess I live a little like James Dean
All of these horses, pushing this Porsche like James Dean
From a small town, now I gotta big house like James Dean
317 and them 765 niggas know me
Since '03 I been reppin' for the town like James Dean

Yea I be doin' the most
Hop on a beat and I float yea
A rebel without a cause
Now I got her driving the boat say aah
Can't help I'm in love with this shit
In Hollywood but I will never forget where I'm from and the struggle that ca
me with it
But this life in the fast lane is dangerous yea
Some people I gotta curve, hit 'em with the swerve
Somewhere between going to the club and goin' to church
But don't you feel sorry for me
I'm exactly where I wanna be
All I need is some chucks and a white tee

Cause I feel like James dean
Hottest thing outta Indiana since James Dean
Got a couple models in my kitchen just to blow off steam
Young, rich and handsome; how could you blame me?
I'm just living a dream
Guess I live a little like James Dean
All of these horses, pushing this Porsche like James Dean
From a small town, now I gotta big house like James Dean
317 and them 765 niggas know me
Since '03 I been reppin' for the town like James Dean

Look at the ice on the crown that I'm carrying
Straight outta Marion
Memories with family I cherish them
We went from Gameboy's to gambling
Now I wear the city on my back like a champion
Feelings I buried them
Nostrils be flaring when I see a nigga who just ain't no comparison
Gettin' love and praise I should be inheriting
Just don't seem fair to me
Fit is too clean
The flow is too mean
So Imma keep gettin' green
Like Bruce Banner did

Sean Connery got nothin' on me
It's time I join the league of extraordinary gentlemen
They ain't Superfly like me
They ain't put the time in like me
Them niggas wouldn't die for it like me

Like James dean
Hottest thing outta Indiana since James Dean
Got a couple models in my kitchen just to blow off steam
Young, rich and handsome; how could you blame me?
I'm just living a dream
Guess I live a little like James Dean
All of these horses, pushing this Porsche like James Dean
From a small town, now I gotta big house like James Dean
317 and them 765 niggas know me
Since '03 I been reppin' for the town like James Dean

Yea I come a long way
