Mixtape

Trevor Jackson

You know you kinda rare baby
That’s why I gotta make you mine
And I just can’t wait anymore
‘Cause you be poppin' in my head baby
It’s like you always on my mind
It ain’t really a secret anymore

You're the melody and I’m the words
So as long as we keep it up
This song will write itself
This love is top 40 baby
Let it be the soundtrack for both of us
Oh, for both of us

Let's go ahead and make a mixtape
Might as well bring back the 12 play (your body's callin’)
We should make a mixtape
And let the song say what you do to me
You do it so well darlin’

I love it when you do that baby
Keep giving me life
Ain’t feel like this in a while
Your heart it beats like bass against my chest
And I can't wait to play it loud

You're the melody and I’m the words
So as long as we keep it up
This song will write itself
This love is top 40 baby
Let it be the soundtrack for both of us
Oh, for both of us

Let's go ahead and make a mixtape
Might as well bring back the 12 play (your body's callin’)
We should make a mixtape
And let the song say what you do to me
You do it so well darlin’
Let's go ahead and make a mixtape
Might as well bring back the 12 play (your body's callin’)
We should make a mixtape
And let the song say what you do to me
You do it so well darlin’
