Baby please-
Please, look at me how you want
We don't need approval from them
We can be whoever we want, we want
Baby please-
Please, touch on me how you want
We don't need opinions from them
'Cuz they will never understand
Take my hand

Think of all the things you never think of
The things you never speak of
Speak of, girl, speak of
I'm in love with every single feature
You're like the Mona Lisa
A mysterious creature
And I wanna see

More
Baby, can you show me
More
I'm ready to see more
Baby, can you lock the door
So I can give you more

More
Baby, I can show you that
More
Baby, can you throw it back
More
Ain't no holding back any-
More, baby
More

When you're looking back at me with those eyes
Swear it feels like, feels just like deja vu
How can something so wet be so fire
If you died I died too, I mean
How many times does one feel like that
Calling on God when it feel like that
Like, oh my God when you move it like that
I swear it's so good, so good
Didn't know it could be like that
Best I ever had and that ain't no cap
Ooh, Baby
And you think

Think of all the things you never think of
The things you never speak of
Speak of, girl, speak of
I'm in love with every single feature
You're like the Mona Lisa
A mysterious creature
And I wanna see

More
Baby, can you show me

More
I'm ready to see more
Baby, can you lock the door
So I can give you more

More
Baby, I can show you that
More
Baby, can you throw it back
More
Ain't no holding back any-
More, baby
More

More
Baby, can you show me more
I'm ready to see more
Baby, can you lock the door
So I can give you more

More
Baby, I can show you that
More
Baby, can you throw it back

Ain't no holding back any-
More, baby
