

Night Time

Trevor Jackson

In the night time, I find
We start to lose control
Cause in the night time, the morning so bright
Animals we turn into
But it only happens when I'm with you baby
You be scratching, biting, got you howling at me when I get it
In the night time
I know you feel it babe
All this sinning, there ain't no forgiveness when I'm in it babe
In the night time yeah

Said she wanna see me in the night time yeah
She know I'm a beast in the night time yeah
Call me anytime like a lifeline yeah
Say less, the whip now I'm in it, I be on my way in a minute
I just gotta pull up, park the car by the corner store
Apartment 304's where I'm headed to
I opened up the door, already on the floor
And she's on all fours, she know I transform
When she do it in the night time

In the night time, I find
We start to lose control
Cause in the night time, the morning so bright
Animals we turn into
But it only happens when I'm with you baby
You be scratching, biting, got you howling at me when I get it
In the night time
I know you feel it babe
All this sinning, there ain't no forgiveness when I'm in it babe
In the night time yeah

The curse fall upon me at night, and girl you got nowhere to hide
I start bursting outta my clothes, now there's no more white in my eyes
Now I got claws for my hands, I am no longer a man
Thought you know what happens this hour, so why didn't you turn me down
Yeah yeah yeah yeah babe, what happened babe
Why didn't you turn me down tonight whoa
You better get ready babe, you better stop running babe
Cause I'm about to tear that ass up tonight

In the night time, I find
We start to lose control
Cause in the night time, the morning so bright
Animals we turn into
But it only happens when I'm with you baby
You be scratching, biting, got you howling at me when I get it
In the night time
I know you feel it babe
All this sinning, there ain't no forgiveness when I'm in it babe
In the night time yeah
