

The 25th

Trevor Jackson

I know it's late mama
But we just got in to town
You know you the baddest
So I know that the baddest is all that you hang around
So I was hoping yo'll could come to us
Once in a while
Ain't a damn thing wrong
We just switching it up
Once in a while

I check out the front (You know you love me)
Drink after drink (Don't forget the ice man)
Me I got the loving
You and your friends is all we need
We here one night only my love
So don't leave us lonely my love
I just, don't see nothing wrong

With yo'll coming over (Can you)
Come over (Come Thru)
Baby could you do that much for me
I know ya'll wanna come over (We tryna get the party started)
Just come over (We tryna get naughty, naughty)
Leave your name down at the front desk
About to call yo'll come up to the 25th
Yeah

You like it when I do it like that don't you
Turn the music up until they get mad at us
Woah, damn
(Sir could you turn down the music)
My fault we're turning down the music
Guess we turning up the music

Putting on a show (How you do that?)
The kind you like to see (You know I'm talking about)
The cameras got you going
Memories is all we need
We here one night only my love
So don't leave us lonely my love
I just, don't see nothing wrong

With yo'll coming over (Can you)
Come over (Come Thru)
Baby could you do that much for me
I know ya'll wanna come over (We tryna get the party started)
Just come over (We tryna get naughty, naughty)
Leave your name down at the front desk
About to call yo'll come up to the 25th
Yeah

We tryna get the party started
We tryna get the party started
We tryna get...
We tryna get naughty, naughty
