

Understatement

Trevor Jackson

Why'd you lie? What you think? What you drinkin'?
Wanna know if you still think of me
Too many rounds with your girls last weekend

Hope you don't do that shit just to forget me
Remember that time you used to let me in
Remember the way I used to hold you down
Thought we would be the ones to settle down

But then a fight had started
We got caught up, we lost our way
We tried our best to save it
But shit just got too complicated
Girl, if you still love me, say it
I'm just saying
I've had enough
Missing you's an understatement
I can't sleep without you, baby
Whoa

Don't wanna play with you
Yuh
I always break the rules, I know
I miss that candlelight
I know I said a lot
I know I said some things that I regret and I'm embarrassed
I don't know how I could have been so careless
But you all up in my head just like dandruff
I see you on the 'Gram but not on campus

Hope you don't do that shit just to forget me
Remember that time you used to let me in
Remember the way I used to hold you down
Thought we would be the ones to settle down

But then a fight had started
We got caught up, we lost our way
We tried our best to save it
But shit just got too complicated
Girl, if you still love me, say it
I'm just saying
I've had enough
Missing you's an understatement
I can't sleep without you, baby
Whoa

You got me so in my head
I just want you in my bed
Girl, we almost there
I wanna stay right here
All in my face, I don't need no 3D
I see that you're holding back (Back)
But if you did I've done it (Done it)
If you like it, I love it
I put it deep in your stomach, yeah
Fuck it, let's do it in public
I make you fill up a bucket, babe

I'm gonna let you forget me
Remember that time you used to let me in
Remember the way I used to hold you down (You down)
Thought we would be the ones to settle down (Down)

But then a fight had started
We got caught up
We lost our way
We lost it all, we lost it all
We tried our best to save it
Tried so hard
But shit just got too complicated
Girl, if you still love me, say it
I'm just saying (Hey)
I've had enough (Oh)
Missing you's an understatement
Miss you, babe
I can't sleep without you, baby
I can't sleep without you, babe
Whoa

Whoa
Yeah
No
No
