

Dose

Trevor Moran

Oh, lately
We got so deep you need to save me
I'm going motherfucking crazy
I'm thinking 'bout it all night
How come I never do right
Just know I'm telling you

I want it all night
And I finally decided
I want your dose
Whatever you're on

Yeah, yeah, I
When I get
Get you to myself
I will take
All your dose
Until I overflow
'Cause you give me the remedy, oh
'Cause you give me the remedy, oh

Every time that we touch
All my worries just go
Damn, it's somethin' 'bout us
I keep taking the dose

Baby, I've been here thinkin' 'bout your body
You put me to you like a magnet
Yeah, I wanna know you right now
[?] your crown
Baby, just come to me

I want it all night
And I finally decided
I want your dose
Whatever you're on

Yeah, yeah, I
When I get
Get you to myself
I will take
All your dose
Until I overflow
'Cause you give me the remedy, oh
'Cause you give me the remedy, oh

Every time that we touch
All my worries just go
Damn, it's somethin' 'bout us
I keep taking the dose

All, all night [?] we feel so right, right
All I gotta do is follow the script
And I know you'll take me on a crazy trip

Yeah, yeah, I
When I get

Get you to myself
I will take
All your dose
Until I overflow
'Cause you give me the remedy, oh
'Cause you give me the remedy, oh

Every time that we touch
All my worries just go
Damn, it's somethin' 'bout us
I keep taking the dose
