

# Echo

Trevor Moran

You and I  
We were onto something  
Now I'm left with nothing at all  
And I  
Wanna hear your echo  
Got to be the name you call

Every time I do it like that  
Turns out you crawl right back  
Don't wanna put your heart into cracks  
Love is not red it's black

Say I love it  
So what are we gonna do  
Your mind is running on  
Oh I love it  
So what are we gonna do  
Your mind is running on

You and I  
We were onto something  
Now I'm left with nothing at all  
And I  
Wanna hear your echo  
Got to be the name you call

Wanna hear your echo  
Wanna hear your echo

I see trouble when I know  
Every thing I do is one big show  
Even though you make me glow  
I have to move on and grow

I love it  
So what are we gonna do  
Your mind is running on  
Oh I love it  
So what are we gonna do  
Your mind is running on

You and I  
We were onto something  
Now I'm left with nothing at all  
And I  
Wanna hear your echo  
Got to be the name you call

Wanna hear your echo  
Wanna hear your echo

I love it  
So what are we gonna do  
Your mind is running on  
I love it  
So what are we gonna do  
Your mind is running on

Wanna hear your echo  
Wanna hear your echo
