

Let's Roll

Trevor Moran

Pulling up in black cars
Looking like a star
It's about to go down
Cameras flashing everywhere
'Cause we don't even care
Bitch, we're living right now

Walked up to the front gate
Tipping like a runway
It's about to go down
But it's not even my birthday
Midnight on a Thursday
We 'bout to get loud

Baby, baby, I just dropped to my knees
I don't wanna feel the lights off me
You can follow if you just trust me
Whoa

Baby, baby, I just dropped to my knees
I don't wanna feel the lights off me
You can follow if you just trust me
Whoa

Tonight we're on fire
You can't hide
Let's roll, roll
Tonight you and I-
We're aligned
Let's roll, roll
I'm getting impatient
Getting sick of waiting
You already know
Tonight we're on fire
You can't hide
Let's roll, roll

Take a look at me now
Got everyone around
And we're shutting it down
No worries anymore
'Cause what we have in store
It's about to get loud

Got me walking on a runway, baby
'Cause I'm dressed to impress you, baby
It's not even my birthday
1:00 AM on a Thursday
It's about to get loud

Baby, baby, I just dropped to my knees
I don't wanna feel the lights off me
You can follow if you just trust me
Whoa

Baby, baby, I just dropped to my knees
I don't wanna feel the light off me

You can follow if you just trust me
Whoa

Tonight we're on fire
You can't hide
Let's roll, roll
'Cause tonight you and I-
We're aligned
Let's roll, roll
I'm getting impatient
Getting sick of waiting
You already know
'Cause tonight we're on fire
You can't hide
Let's roll, roll
Let's roll,
Let's roll,

Baby, baby, just trust me
Baby, baby, just trust me
Baby, baby, just trust me
Whoa

Tonight we're on fire
You can't hide
Let's roll, roll
Tonight you and I-
We're aligned
Let's roll, roll
I'm getting impatient
Getting sick of waiting
You already know
Tonight we're on fire
You can't hide
Let's roll, roll
