I don't think you really wanna test me right now
I'm running high on energy, so come and find out
(Come on, come on, come on)
When shit is crazy I'm a nasty bitch
Not a classy bitch
Paper airplane, origami, crafty bitch
You never know, never know, never know it, babe
You never know, never know, never know it, babe

LA is quite confusing
Do I leave this town and lose it?
I don't know, I don't know

Fucked up in black cars, I'm swerving
Turn this shit up baby, till my ears are hurting
Right now
Yeah, right now
Yeah, right now
Is this a city where my real friends are?
Everyone's fucking to the top, becoming stars
Yeah, stars
Yeah, stars

Don't try to convince me or try to trick me
'Cause all these companies just want my money
Nasty bitch, yeah, you a nasty bitch
You never know when you're gonna meet a trashy bitch

LA is quite confusing
Do I leave this town and lose it?
I don't know, I don't know

Fucked up in black cars, I'm swerving
Turn this shit up baby, till my ears are hurting
Right now
Yeah, right now
Yeah, right now
Is this a city where my real friends are?
Everyone's fucking to the top, becoming stars
Yeah, stars
Yeah, stars

No, no

So tell me, tell me, tell me
Who are you gonna fuck just to get there?
Who are you gonna fuck just to get there?
Who are you gonna fuck just to get there?

Fucked up in black cars, I'm swerving
Turn this shit up baby, till my ears are hurting
Right now (right now)
Yeah, right now (yeah, right now)
Yeah, right now
Is this a city where my real friends are?
Everyone's fucking to the top, becoming stars (becoming stars)
Yeah, stars (yeah, stars)

Yeah, stars
