

## Brief Time

Trey Anastasio

It's such a brief time we get to be here  
All together, as friends, they come and go  
We stand in streams of water and circle 'round the sun  
Until our time is done  
It's such a brief time we get to be here  
Crystal memories shimmer in my mind  
Of laughing all together, I will always cherish

'Til the end of my time  
And what was I so worried about?  
What a waste of time  
I can't even remember now  
I've seen smiles on passing faces  
In the long unending line  
It's such a beautiful world  
And such a brief time  
It's such a brief time we get to be here
