

# Drift While You're Sleeping

Trey Anastasio

[Verse 1]

I've seen the day go by  
And drag you down  
Pushed and pulled 'round  
Rocked and bound

[Chorus 1]

You can drift while you're sleeping  
I'm here with you  
You can drift while you're dreaming  
And love will carry you through

[Verse 2]

Earth-bound, we drag on  
Our wars to wage  
The moon looks black now  
So turn the page

[Chorus 1]

You can drift while you're sleeping  
It will all feel new  
You can drift while you're dreaming  
And love will carry us through

[Post-Chorus]

Oh, down the stream you ride  
Oh, down the stream you ride  
Oh

[Instrumental Break]

[Bridge]

We are wind, we are wind  
And we can't hold on  
Hold on to anything we see that's gone  
We're gone in a heartbeat, fleeting, it's gone  
We are wind, we are wind  
We crumble into nothing, we are wind  
Two parts me, folded together  
For one brief moment everything fits  
The sun feels warm and that heat there was dripped  
But this life is a stage set  
The same sun rose on everyone who ever lived or died  
And that same sun set  
So I guess that the good times turned out to be  
Just the temporary reprieve of morality  
The nights drip over the falls in a barrel with me  
We'll do it again when we meet on the other side  
So Charon, in your filthy cloak  
I'll take my friend on this ferry ride  
You can still have your obol  
But we don't need a guide  
So step aside  
That thin, thin bubble, I know what it is  
I see it, I see it, it's always been there

It's stronger than words, stronger than time  
It's the line drawn between us  
It's love, it's love, it always was  
And it is and it always will be love  
And it is and it was and it will be love  
It is and it always will be love  
It's love, it's love, it always was

And it is and it always will be love  
[Chorus 2]  
We move through stormy weather  
We know that our days are few  
And we dream and we struggle together  
And love will carry us through  
And love will carry us through  
We move (We move)  
Through stormy weather (Stormy weather)  
We know that our days are few (Yeah, yeah, yeah, yeah)  
And we dream and we struggle together  
And love will carry us through  
We move (We move, yeah)  
Through stormy weather (Through stormy weather)  
We know (We know) that our days are few  
(Yeah, yeah, yeah, yeah, ooh)  
And we dream and we struggle together (We struggle together)  
And love will carry us through  
[Instrumental Break]  
[Chorus 2]  
We move (We move)  
Through stormy weather (Through stormy weather)  
We know (We know, we know)  
That our days are few (That our days are few, yeah)  
And we dream (We dream)  
And we struggle together (We struggle together)  
And love will carry us through (Will carry us through)  
[Guitar solo]  
[Chorus 2]  
We move through stormy weather  
We know that our days are few  
(Yeah, yeah, yeah, yeah)  
And we dream and we struggle together  
But love will carry us through  
But love will carry us through
