

# Goodbye Head

Trey Anastasio

Goodbye head, goodbye knees  
Goodbye, all you see there  
Don't you know the stars in the sky  
Might not even still be there?

'Cause it takes a thousand years  
For the light to reach your eyes  
From way up there in the big blue sky

Goodbye hands, goodbye feet  
Goodbye, all I depend on  
Goodbye stuff, goodbye things  
This is what I'll end on  
'Cause it takes a thousand years

For the sound to reach your ears  
From away up there in the big blue sky  
In the big blue sky  
In the big blue sky

In the big blue sky  
In the big blue sky  
In the big blue sky

'Cause it takes a thousand years  
For the sound to reach your ears  
From away up there in the big blue sky  
In the big blue sky  
In the big blue sky
