

# The Silver Light

Trey Anastasio

[Chorus]

The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me  
The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me

[Verse 1]

I see things no other sees  
Like angels on a summer's breeze  
Or demons in the silver light  
That spills across my desk at night

[Chorus]

The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me  
The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me

[Verse 2]

I hear things no others hear  
The whispers in your lover's ear  
The songs of pain that loss may bring  
Which ghostly voices nightly sing

[Chorus]

The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me  
The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me

[Verse 3]

I feel things no others feel  
And wear long garments to conceal  
The moonburn from the forgotten light  
That spills across my desk at night

[Chorus]

The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me  
The silver light that falls at night  
Reminds me what it's like to be  
Ever flowing, never knowing  
In a sense, it's only me  
In a sense, it's only me  
In a sense, it's only me  
In a sense, it's only me
