

Bed, Bath & Beyond

Trey Songz

Hey, Miss. Feisty what's your name,
You ain't got a deadline,
Maybe we can hang,
Oh, let's talk,
I'm loving that swag,
Hair so long,
It comes down to your ass,
Oh baby, I was leaving,
But damn that dress,
Looking so pricey, but yet priceless,
Yeah baby I'm a follow,
Tell me where to go,
With my navigation shawty let's roll,
You know the destination tell me where to be,
Touching on your hair, down to your feet,
Down to the bed, into the bad,
Then to beyond,
All you gotta do is ask,

Baby I'm a take you to all the places you admire,
I could go low and make you go higher,
I can't let you go, baby I'm tryna,
I just wanna let you know,
We can take it to the bed,
We can take it to the bath,
Girl we can go beyond,
All you gotta do is ask,

Hey, Miss. Feisty what's your game,
Baby put me in cause I really wanna play,
I wanna post up low and take you to the whole,
I play all positions, you already know,
We can go the distance, bout a hundred miles,
Start off real fast, then slow it on down,
Take you to bed,
Then to the bath,
And beyond,
All you gotta do is ask,

Baby I'm a take you to all the places you admire,
I could go low and make you go higher,
I can't let you go, baby I'm tryna,
I just wanna let you know,
We can take it to the bed,
We can take it to the bath,
Oh baby girl we can go beyond,
All you gotta do is ask,
Girl if you wanna go beyond this world,
Grab my hand and get behind me girl,
Get your wetter than a bubble bath,
All you gotta do is ask,
Girl if you wanna go beyond this world,
Grab my hand and get behind me girl,
Get your wetter than a bubble bath,
All you gotta do is ask,

Baby I'm a take you to all the places you admire,

I could go low and make you go higher,
I can't let you go, baby I'm tryna,
I just wanna let you know,
We can take it to the bed,
We can take it to the bath,
Girl we can go beyond,
All you gotta do is ask,

Baby I'm a take you to all the places you admire,
I could go low and make you go higher,
I can't let you go, baby I'm tryna,
I just wanna let you know.
