

Make It Rain

Trey Songz

I'm coming through to meet u
Girl I can't wait to see u
Just stepped up out of Magic
I'm feeling like an addict
I need a little touch-up to help me go to sleep
So I'm about to pull up buzz the gate for me
I step off through the door, stumbling from all the sipping
I pull you to the floor, you high from all the kissing
Oooh I know you with it, so let's take it slow
I brought you a ticket baby, I'm gon do a show

Baby you the juice, watch me be the gin
Hit it like a nigga who just got up out the pen
From the floor to the kitchen, kitchen
To the bathroom, bathroom to the shower
Take a break and bring it back in an hour oooh

I'm in my zone tonight, I'm feeling alright
I got this wine in me, got that weed in me
Feeling like a soldier, wana do it rough
I know you like it when I hold you, girl I wana oooh

Make it rain tonight and I ain't talking bout no money girl
I'm a make it rain tonight and I ain't quitting til I get it right (get it right)

Now baby stand up, put your hands against the wall while I kiss down your spine
I'm sure you know where I go from here
And I know you feel when I'm kissing on your kitten
And I know you gon be tripping when I (step inside your love)
Oooh that's what I do, (I just wana love) oooh the closer I get to you
I said it keeps on getting better and I love when we're together

Baby you the juice, watch me be the gin
Hit it like a nigga who just got up out the pen
From the floor to the kitchen, kitchen
To the bathroom, bathroom to the shower
Take a break and bring it back in an hour oooh

I'm in my zone tonight, I'm feeling alright
I got this wine in me, got that weed in me
Feeling like a soldier, wana do it rough
I know you like it when I hold you, girl I wana oooh

Make it rain tonight and I ain't talking bout no money girl
I'm a make it rain tonight and I ain't quitting til I get it right (get it right)

Baby you're [x4] so sweet yes your are
I'm a push [x4] it deep
Til you beg me for more and it hurts to let me go
You say "T-R-E-Y Songz you the king of the world"
Baby you're [x4] so sweet ooooh
I'm a push [x4] it deep
Til you beg me for me to stop and it hurts to let me go
