Somebody call the doctor please  
'Cause you got me on my knees  
I fell right away babe  
(Oh-oh-oh)  
Man I swear that thang so deep  
I probably wouldn't stand a chance in your wave  
Hey-ey

'Cause you know I need that real love, that real love  
Like you wanna make a kid love, kid love  
Something like a big deal love, for real love  
Always  
(Oh-oh-oh)  
Yeah I'm talking bout that right thang, that right thang  
Make you wanna go all night babe, all night babe  
Know you wanna spend the night babe, night baby  
Oh

I only want to see your body  
So, climb on top of me, baby  
Oh, before I'm on top of you  
Ooh-ooh  
Oh-oh  
Just climb on top of me, baby  
Before I go down, go down, go down  
Before I go down, go down, go down

Don't need permission before you make this decision, baby  
I know you thinking 'bout how we got in position, baby  
Ain't a game I'ma play that shit though  
Say my name I'ma tame that shit, ah!  
Put you on top of me, top of me  
Don't ever want you off of me, honestly  
Feeling a little wobbly  
Just hold on tight to me (Hold on tight)

'Cause you know I need that real love, real love  
Like you wanna make a kid love, kid love  
Something like a big deal love, for real love  
Always

Make you wanna go all night babe, all night babe  
Know you wanna spend the night babe, night baby
