

Chilling in my living room
Thinking about things to do
Thinking about every single thing I wanna do with you
Stoned and feeling loose
Feeling new
Feeling all the things I wana do with you
Can I get you home? In the zone
I just wana feel the truth

I haven't felt this way in a minute
I haven't felt this way
I haven't felt this way in a minute
I haven't felt this way

Chilling on my favorite couch
Ask me what I think about
Thinking about how I need your body close
I need it now

What gets you feeling loose? Feeling new
Feeling all the things I wana do with you
Can I get you home? In the zone
I just wana feel the truth

I haven't felt this way in a minute
I haven't felt this way
I haven't felt this way in a minute
I haven't felt this way

I feel just fine
Please don't slip away
I feel alright
Love makes me this way
I feel all right
Please don't leave this way
I feel just fine
Love makes me this way
