

Day One

Triathlon

I've been fighting how I'm feeling
I've been fighting how I'm feeling now
In the morning when I'm dreaming
Shit got me so faded that I'm seeing loud
And I'm on my back now
I'm working on tracks now
I don't wana back out
But she's working my back out

In the morning
I'm performing
Can I zone in
Am I torn
About touring

And I've been me since day one
And I need no sauce like A1
When I'm in my house vacation
See what I'm all about temptation
I've been me since

While I'm chilling in my living room
My mind multiplies like my feelings do
I stride for the vibe I continue to
Provide for my time till I make it through
Can I tell you something? I've been up to nothing
Demons in my eyes like I'm feeling ugly
Hoping that I'm high so they make assumptions
My fingers to the sky so they see em coming

I don't ever wana go back
I don't ever wana know
I don't ever wana go
I don't ever wana hold back
I don't ever wana go back
I don't ever wana know
I don't ever wana go

And I've been me since day one
And I need no sauce like A1
When I'm in my house vacation
See what I'm all about temptation
I've been me since
